## EDUCATION

### Universitas Dian Nuswantoro

2025 – Present

*Teknik Informatika (Informatics Engineering)*

Semarang, Jawa Tengah

### SMK Raden Umar Said (SMK RUS)

*Software and Game Development (PPLG)*

Jalan Sukun Raya No.09, Besito Kulon, Besito, Kec. Gebog, Kabupaten Kudus, Jawa Tengah 59333

---

## ACHIEVEMENTS

### 1st Place – Web Development Competition

2024

*Universitas Katolik Soegijapranata (Unika) Semarang*

Competed and won 1st place in a web development competition at Unika Semarang, representing the project FloraVerse — an edutainment platform featuring interactive UI and gamification mechanics for plant science learning.

---

## PROJECTS

### FloraVerse

2025

*Front-end Developer*

Live: <https://floraverse.vercel.app/>

FloraVerse is an edutainment website that focuses not only on learning but also on providing an Interactive UI and gamification experience. Features include:

- Unlock Biome system for exploring different plant ecosystems
- Progressive plant-learning levels tailored to each biome
- EXP-based reward system to earn profile borders
- AI FloraBot and FloraScan for plant identification, explanations, and Q&A

### Conversation Card

2024

*Front-end Developer (Solo Project)*

Portfolio: <https://altan-porto.vercel.app/AllProjects>

An interactive chat card application that presents a variety of unique question decks with genres ranging from romance and hobbies to deep talk. In this solo project, I handled the entire front-end cycle — from UI design and slicing to API integration — enabling users to log in and create their own custom decks.

### RUS Consign Application

May 2024 – September 2024

*Front-end Developer*

GitHub: <https://github.com/AufaNajid/RusConsign/tree/develop>

RUS Consign is a platform designed to support SMK RUS students in developing their business digitally. Features make it easier for students to market their products and provide deeper insight into effective business management.

### Dashboard Admin RUS Consign

May 2024 – September 2024

Front-end Developer

GitHub: <https://github.com/altantheprodigy/admin-rus-consign>

Admin dashboard website used to facilitate admins in managing RUS Consign data — users, partners, products, and transactions — as well as handling partner and product registration approvals.

## AirPay Finance App

December 2023

Front-end Developer

GitHub: <https://github.com/airon-main/airpay-finance-app>

A financial management application created to make it easier for users to perform payments such as transfers, top-ups, and more.
